

IO4 "Eu-Videos"

25.01.2021

Centrul de Voluntariat Cluj-Napoca

Thanks to the cooperation with the project partners, we managed to implement nine videos of some young people who participated in the Erasmus + and European Solidarity Corps programs. They answered questions:

"How did this experience help you grow as a person?"

"What are the advantages of being a European citizen as a young person?"

"How has the international environment helped you to develop personally and develop new skills?"

"How has the European Union contributed to your personal and professional development?"

"Why would you recommend participating in a transnational mobility?"

Agenda

- Creating a template for the video (We used Canva)
