

TIME	TITLE	DESCRIPTION	ADDITIONAL INFO
18:00 5'	<b>Introduction</b>	Welcome and presentation of our Gemeinschaftsraum	
18:05 5'	<b>Aim of the workshop</b>	What do I want to achieve with my workshop?	I would like to create small "aha" effects in relation to the topic of plastics with the participants and to offer them practical and present above all simple tips on how to avoid the raw material in everyday life. I would also like to draw the attention of TN to the film "Plastic Planet". The participants should go home after my workshop and feel motivated to avoid plastic in everyday life and to put the information into practice.
18:10 10'	<b>Participants' presentation</b>	little exercise to get to know each other	bunch of keys Aid: Key ring of the TN drain: The participants sit in pairs and introduce themselves to each other with their key ring. For example: "This is my bicycle key. I had to repair my bike last week because...". After about 2 minutes the participants change partners and get to know another participant. Presentation in match length Auxiliary means: matches, a small bowl with water outlet: The participants sit in a circle and introduce themselves one after the other. However, they only have as much time as their match burns. If it is extinguished the box and the next one is the turn.
18:20 10'	<b>Introduction to the topic</b>	Extract from the film "Plastic Planet" Minute 2:56 to 10:25	Published in 2007, producer of the film is Werner Boote, for this documentary he travelled around the world and talked to many different people about the topic of plastics, the investigative reporter also covered interesting and sometimes also very curious facts, film is a wonderful way to get into the subject and provides background knowledge
18:30 10'	<b>Ask the participants' motivation</b>	Why are you here today? Why do you care about topic?	Writing on cards of the moderator and then talking about it. Arrange cards on Pinnwand.
18:40 10'	<b>Data and facts about plastic waste</b>	Which numbers are particularly worrying? What should one basically know about the material?	Explaining Poster
18:50 10'	<b>Film clip</b>	From minute 10:50 to 13:58 From minute 23:56 to 28:25 (Plastic processing company in China)	Talking about it
19:00 10'	<b>Break</b>		We will take a short break. Afterwards we will talk about simple and uncomplicated tips on how to use your plastic in everyday life.
19:10 8'	<b>How can I avoid plastic?</b>	Book Presentation "Besser leben ohne Plastik" (Living better without plastic)	Tipps in relation to the presentation
19:18 10'	<b>Film clip</b>	from minute 34:56 to 38:46 (Landfill in India) from minute 45:18 to 48:26 (Clean Up on Japanese Island)	Talking about it
19:28 2'	<b>Becoming active-my experience</b>	Presentation of the book "Schluss.Mit.Plastik"	Rubbish collection campaign
19:30 10'	<b>What ideas do you have? What are you perhaps already implementing?</b>	The participants according to their own ideas and experiences write on the moderator cards	Talking about it
