

How to think critically in 4 steps?

TIME	TITLE	DESCRIPTION	ADDITIONAL INFO
00:00 30'	Introduction	In introduction we talk about the definition of critical thinking and participants are using Mentimeter to adress all of their associations for this topic. Then we list a few different definitions of critical thinking and try to come up with our own, using participant's associations. After defining the term of critical thinking we talk about a short history of critical thinking, mentioning all the philosophers who had used it in an interesting way.	
00:30 45'	4 steps of critical thinking	In the middle part we explain 4 steps of critical thinking and give the participants few interesting but relevant topics (in this workshop we used 2 topics (Istanbul convention and COVID-19 vaccine). After presenting the steps and the topics, we divided participants into 2 groups, and every group got one of the mentioned topics. They were working on 4 steps in groups and after each step we came back into the main session and talked about our conclusions.	
01:15 10'	Presentation	For wrap up activity each group has explained their final conclusion from the group work and presented their new critical view on the topic.	
01:25 5'	Evaluation	Each participant is asked about his/hers comments and feelings about this workshop.

4 steps of critical thinking

In the middle part we explain 4 steps of critical thinking and give the participants few interesting but relevant topics (in this workshop we used 2 topics (Istanbul convention and COVID-19 vaccine). After presenting the steps and the topics, we divided participants into 2 groups, and every group got one of the mentioned topics. They were working on 4 steps in groups and after each step we came back into the main session and talked about our conclusions.
